

RCN - RIDDLER COIN

Whitepaper & Tokenomics

Introduction

I, NFT Riddler, am a **Digital Artist involved in the XRP Community** since the beginning of my crypto-art journey. I experiment with various methods/processes to widely demonstrate & participate in the development of this network. My NFTs are artistic representations of this technological revolution. **RCN (Riddler Coin) is a fungible token on the XRPL** associated with my non-fungible asset creations.

Why a fungible token on the XRPL ?

Because #XRPTTheStandard, #0doubt.

Usecase for the RCN

RCN will be used to **obtain rare NFTs directly** through my website <https://nft-riddler.art>
Please join NFT Riddler Discord for more details.

Trustline set up

Issuer Address : **r4GquJLRTAmEMLECBKaSMLB8pV4dmLWNxX**

Token currency code : **RCN**

Limit : **589131**

or

<https://xumm.community/?issuer=r4GquJLRTAmEMLECBKaSMLB8pV4dmLWNxX¤cy=RCN&limit=589151>

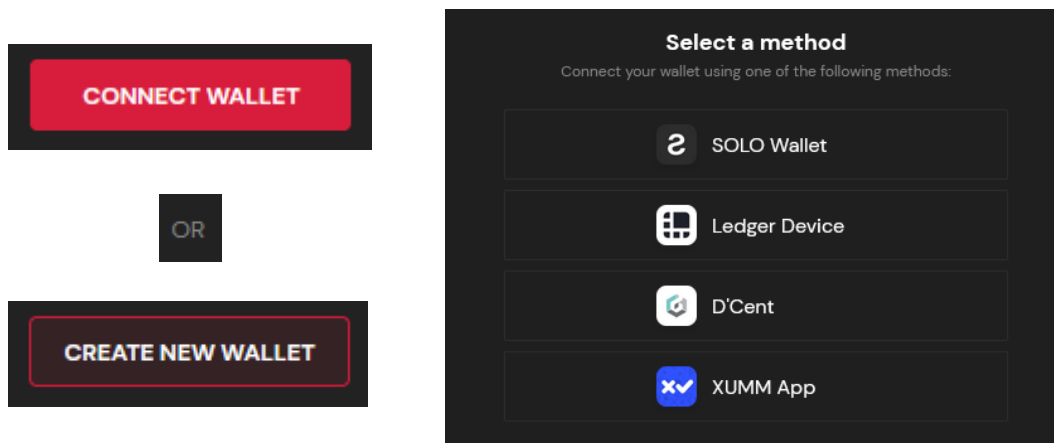

Trade RCN against other XRPL tokens

You can switch some XRPL tokens with the **Path finding application on Xumm Wallet** (beta access)
<https://xumm.app/detect/xapp:xumm.pathfinding>

Get RCN on Sologenic Dex

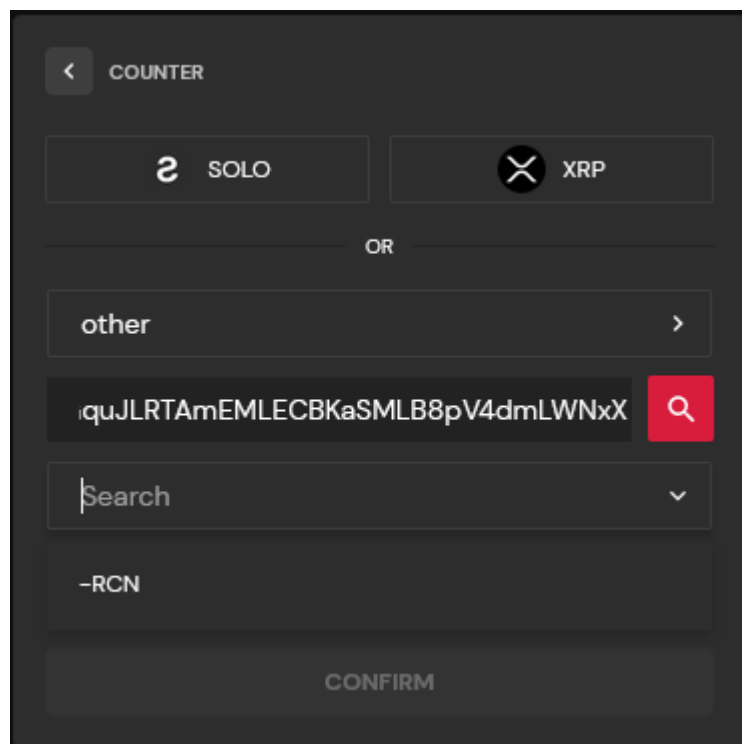

You can get your RCN token on <https://sologenic.org/trade>

1 - Connect your wallet or create one

2 - Search the token by Issuer
